※ ● and ○ marks on the bus route shows bus stops.

※ Some bus stops are omitted in the map.

※ Numbers in parentheses in the map show the estimated length of time between stops. The times are strictly estimates for service during normal hours. Please note that times will vary during traffic congestions.

Sightseeing spots in the area

1 Owakudani
Owakudani is a volcanic opening on Mt. Kami that has been active for roughly 3,000 years. It continues to be active to this day, spewing out gas and steam.

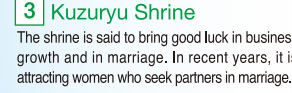

6 Hakone Shrine
Believed to be founded in the early Nara Period, the shrine is well known for the red torii gate that stands in the lake.

2 Hakone Kuzuryu Forest
A park featuring the flora of the Hakone Ashinoko (Lake Ashi) area in its natural habitat

7 Hakone Sekisho (Checking Station)
The traveler checking station at Hakone was created in 1619 during the reign of the second Tokugawa shogun, Hidetada. The principal objective of the station was to monitor the activities of the daimyo lords, tracking specifically "the inflow of firearms and departure of women" from Edo.

3 Kuzuryu Shrine
The shrine is said to bring good luck in business growth and in marriage. In recent years, it is attracting women who seek partners in marriage.

8 Hakone Ashinoko (Lake Ashi) Boats Cruise
Twin-hulled boats featuring a wide deck offering a wide field of vision operates from Hakone Sekisho-ato to Moto-Hakone, Hakone-en and Kojiri.

4 Hakone-en Aquarium
The aquarium offers visitors a look at 32,000 fish representing 450 species from around the world, from the ocean to freshwater bodies.

9 Jukkokutoge Cable Car
The observatory at the mountaintop offers a view not only of Mt. Fuji but a wider panorama of Sagami Bay to the Izu Islands, as well as Suruga Bay and the mountains of Amagi.

5 Hakone Komagatake Ropeway
An aerial lift that takes you on a 7-minute ride in the air from Hakone-en on the bank of Ashinoko (Lake Ashi) to the top of Mt. Komagatake. It offers a panoramic view of the area from Suruga Bay in the distance to Izu Peninsula and the Southern Japanese Alps.
